School Name	Demonstrated Interest Considered?	Very Important	Important	Considered	Not Considered	Data Source
All data was compiled with a simple search of the school's website. As of the date of this chart, we have not reached out to contact schools to request data if it was not available. We will be updating this chart soon and requesting data from schools where data is not listed.						
We're not infallible and took this information straight from the Common Data Set reported by each school. For best results, contact the school directly.						
The list of schools was compiled using those that utilize early decision and institutions in which our clients often apply. Not all colleges/universities in the US are listed.
